

FRANCESC XAVIER MARTÍNEZ BATLLE

JUNIOR DEVELOPER · Backend · Full Stack · AI

+34 640 606 054 | xavimb04@gmail.com | Barcelona

LinkedIn | GitHub | Portfolio

PROFESSIONAL PROFILE

Junior developer focused on backend, full stack and AI. I work with Kotlin, TypeScript/Node.js and Python, and I build my own projects, which I deploy on my own VM (Oracle Cloud). I am looking to join a development team where I can contribute and keep growing.

TECHNICAL SKILLS

Languages

Kotlin, TypeScript / JavaScript, Python, Java

Mobile

Jetpack Compose, Android Studio, Flutter / Dart

Backend / Web

Node.js, Express, REST APIs, React, Next.js

Databases

PostgreSQL, Supabase

AI / LLM

Claude, Gemini, Ollama, MCP, prompt engineering

DevOps / Cloud

Linux, Oracle Cloud (own VM), Docker, n8n, Git, GitHub

COURSES

Advanced Expert Course in Generative AI, Automation and SaaS Development
Udia · 2025 – 2026 · Completed

LANGUAGES

Spanish Native

Catalan Native

English A2 · currently studying

PERSONAL SKILLS

Resource management under pressure.
Team leadership towards shared goals.
Decision-making with available information.
Clear communication under stress.
Independent learning and adaptability.

FEATURED PROJECTS

AI Project Lab

Python · Claude · Gemini · Ollama · MCP · Git · Docker

AI agent orchestrator that plans goals in phases, implements changes, runs tests and reviews code. Integrates multiple model providers, security checks and Git checkpoints.

GymFlow

Android · Kotlin · Jetpack Compose

Gym routine management app with an interactive muscle diagram and modern navigation.

[GitHub](#)

FocusFlow

Next.js · TypeScript · Flutter · Supabase · Claude

Task app with web (Next.js) and mobile (Flutter) versions on Supabase, with a calendar and an AI planner that turns goals into tasks. Deployed on Vercel.
